

Program & Project Management

Project Organization

We facilitate companies to deliver consistent project success through strong organizational structure and development. The Cousins Group ensures that each venture is successful

Project Planning and Estimating

In our evaluation we encompass all estimation, risk analysis, scheduling, and task planning for individual projects

Systems Development Methodology

Our tested project framework that is used to structure, plan, and effectively control the process of developing any program or system project.

Project Governance

We implement a dependable basis for approval and measurement - including defining roles, accountabilities, policies, standards and associated processes

Resource Management

We ensure the efficient and effective deployment of skilled resources when they are needed to optimize project success.
