

Mergers & Acquisitions

Integration Program Office Model

We help clients in the management, execution and reporting of the processes across all business units through post conversion support

Organization Structure

We establish the appropriate committee structure and build teams to ensure accountability and clear communications throughout the organization.

Methodology

We develop and maintain a detailed plan of vital integration related activities and milestones across all groups. This plan is utilized by the steering committee to track progress of key events across all business units.

Executive Reporting

We create a comprehensive executive reporting model for the of all project activity, deliverables and issues relevant to the program office.
